## PROJECT PROFILE

# BEAUTIFUL AMERICANA™ REAL WOOD USED IN CUSTOM-OUTDOOR APPLICATIONS

In this case, Americana supplied Thermally Modified Poplar blanks which our clients milled to fit their own specifications for custom-fencing and an elegant above-deck ceiling. Because Americana is vertically-integrated from Pennsylvania forests to finished product, we can deliver long-lasting, Thermally Modified wood in any form our clients desire.

Custom profiles? No problem. Rough lumber? We have you covered. You choose how far you want to go, whether you're after a DIY showpiece or a fully-integrated OEM line. We can make it happen...on spec, on budget, and on time.
